SUPERINTENDENT'S REPORT

To the School Board and Citizens of Wentworth: I am presenting the following brief report of school conditions:

Thus far my work has been mainly that of getting acquainted with general school conditions, of putting good tools in the way of books and supplies in the hands of teachers, of checking up the daily programs in the different schools and of advising and assisting teachers in regard to the many problems that arise from day to day. Nothing revolutionary has been

undertaken. The educative process is of slow growth and the yearly result may not be startling, but each year should see continuous progress in the way of higher standards of scholarship, of better attendance, of better buildings, of higher grade teachers and of general school efficiency.

Text books on the whole were badly worn and out of date. New histories for grades 4, 5, 6 and 8, new geographies, many new reading books for primary grades, and a set of reference books for upper grades have been purchased. There is still need of additional histories, much more supplementary reading for all grades and of wall maps for geography and history.

The average monthly salary of teachers in Wentworth is \$56.56 or \$509.04 yearly. For a woman who is entirely self-supporting this is a very small income, especially when we consider the time spent in training and preparation for her work. Salaries will inevitably be higher next year, as there is a serious shortage of teachers not only in New Hampshire, but all over the country. Commissioner Claxton reports that 20,000 schools in the United States are closed because teachers cannot be obtained for them and that 40,000 schools have teachers of less than a high school education.

Most of the school buildings do not fully meet the minimum requirements of the State Board of Education and the State Board of Health. Appropriation should be made at the March meeting to remedy these deficiencies at once.

I have found in Wentworth some good teachers, capable and interested pupils and a public sentiment favorable to permanent progress.

Respectfully submitted,

CARL T. RHOADES.
